Accessibility Standards

In developing and maintaining our Website, we strive to follow recognized accessibility best practices and to work toward conformance with the **Web Content Accessibility Guidelines (WCAG) 2.2 Level AA**, where reasonably practicable.

Accessibility is an ongoing process rather than a one-time achievement. As our Website evolves, we will continue to review and improve accessibility features and address barriers where they are identified.

Accessibility Features

Where reasonably practicable, our Website is designed to support features such as:

- Clear and consistent navigation

We continually evaluate opportunities to improve accessibility as new content and features are added.

Third-Party Content

Some areas of our Website may include content, services, or tools provided by third parties, such as:

- Online donation platforms
- Embedded videos
- Interactive maps
- Social media content
- External websites
- Event registration platforms

While we encourage our third-party providers to maintain accessible services, we cannot guarantee the accessibility of content or systems that we do not own or control.

Ongoing Improvement

Accessibility is an important part of our commitment to serving our community.

We periodically review our Website and may make updates to improve accessibility, usability, and compatibility with evolving technologies and recognized standards.

Feedback from visitors plays an important role in helping us identify areas for improvement.
